**[The rest of this page has been intentionally left blank]**

**B. ADDITIONAL INFORMATION REQUIRED UNDER THE LEAP MARKET LISTING REQUIREMENTS OF BURSA SECURITIES**

**B1. Review of Performance**

The Group recorded RM9.63 million revenue for the first half year ended 31 December 2020 ("1H2021"), lower by RM0.70 million or 6.7% against the first half year ended 31 December 2019 ("1H2020") mainly due to lower sales contribution from the ICT solutions segment.

The Group's gross profit, however, increased by RM0.42 million or 13.3% for 1H2021 compared to 1H2020 primarily due to completion of higher profit margin projects coupled with cost savings arising from lesser business travelling by the project consultants. This resulting in improved overall Group GP margin of 36.8% for 1H2021 compared to 30.3% for 1H2020.

Administrative expenses decreased by RM0.33 million or 24.4% to RM1.02 million for 1H2021 compared to 1H2020 mainly due to lesser sales and marketing activities and business travelling resulting from travel restriction by the government. A total RM0.78 million listing expenses was incurred to list the Group on the LEAP Market of Bursa Securities of which RM0.47 million was incurred in the previous financial years and balance of RM0.31 million in 1H2021.

In line with the improvement in gross profit, profit after tax ("PAT") increased by RM0.50 million or 31.2% to RM2.10 million for 1H2021 compared to RM1.60 million for 1H2020. Excluding the one-off listing expenses, normalised profit after tax ("PAT") increased by RM0.81 million or 50.6% to RM2.41 million for 1H2021 compared to RM1.60 million for 1H2020.

**B2. Prospects**

The movement control imposed by the government globally resulting from the Covid-19 pandemic had adversely impacted the global economy. Likewise, in Malaysia, a series of necessary control movement measures undertaken by the government had caused a major disruption to the general economy recovery.

In response to the sluggish economic landscape, the government has reacted appropriately by coordinating multi-pronged policies to support the livelihoods of the population, stabilize domestic financial markets and ensure the flow of credit into the economy through the 2021 budget allocation. The vaccination programme in 2021 in Malaysia and globally should accelerate the economic recovery rate. Real GDP is projected to rebound by 7% in 2021 supported by both domestic and external demands driven by exports.

The Group foresees the business environment will continue to be challenging for the financial year ending 30 June 2021 due to reimposition of movement control order by the government on 13 January 2021.

**B3. Variance of Actual Profit from Profit Forecast and Profit Guarantee**

The Group has not issued any profit forecast or profit guarantee in any form of public documentation and announcement.
